

## Technical description

Automatic machine with programmable dosage and external groups.

- Body in polished stainless steel
- Inbuilt volumetric pump with balanced by-pass
- Electronic boiler level control
- Volumetric touch pads with blue LEDs (0 to 3000 ml), 4 doses/group + continuous brewing
- Sight glass for boiler level check
- Self-learning doses programming
- Electronic pre-infusion which can be switched off through the panels
- Two steam dispensers with anti-burn wand in stainless steel
- One hot water dispenser with anti-burn wand in stainless steel
- Mechanical pressure switch for boiler adjustment

### EEG ESD Version with display.

- The display shows:
  - machine name
  - water temperature in the boiler
  - coffee brewing timer on each group
  - coffee and hot water counter
- Through the touch pad buttons it is possible to access the settings menu and set many parameters of the coffee machine, among which:
  - Language
  - On-Off times
  - Boiler temperature
  - Pre-infusion time
  - Periodic maintenance program
  - Softener regeneration program

Optional accessories:

- Electronic cup warmer
- Gas heating kit with gas valve, safety thermostat, piezoelectric element, manual boiler fill button (not compatible with ESD version with display)
- "Tall-Cup" version for 135 mm tall cups
- Cappuccinatore or manual milk frother
